LIDERII COMUNITATII, COMUNITATEA LIDERILOR

English description

By implementing the project "Community Leaders, the Leaders' Community", the Bethany organization aimed at developing a pilot center for social services in the Nicolina district of the city of Iasi. The main role of this center is to increase the level of social inclusion and to enhance the efficiency in communication among all social actors in the district. A major objective was to form a local initiative group at the level of the Nicolina district, consisting of community leaders who would manage and solve the requests for assistance submitted by the citizens.
